SYNOPSIS:

Observations of Lee Moyer on 6/19/86

Reference is made to ROI's 86-X-4-4 #1 and #2 reporting possible violations of the Clean Water Act by Pioneer Construction through discharges of wastewater into the Duwamish River in an area designated as Slip #2.

On 6/19/86 Lee Moyer contacted S/A Hattwig and indicated that this morning at approximately 7:12 AM he observed from the opposite shoreline a discharge of a discolored, watery substance from the drain which was covered by the metal plate. Moyer further indicated that he was videotaping the occurrence and that he was able to observe this discharge due to the fact that the tide was abnormally low. The barge which would normally block any observation was low enough that he was able to observe the plate drain from the opposite shoreline. During his videotaping of the incident he was contacted by a male who was wearing a hardhat with the word Glacier written on it. This individual asked if he could help Mr. Moyer. Moyer indicated that he did not need any help.
